Kleur alle onderdelen en plak alles op stevig papier of karton. Laat alles even drogen en knip dan alles uit. Snij het dak aan beide zijden in en verwijder het uit te snijden deel. Vouw nu het dak naar boven en de dakrand naar beneden en zet de achterkant rechtop. Snij de deur en de raampjes van het huisje in zodat ze open kunnen, buig de bovenste lijnstroken naar achteren en de onderste naar voren en vouw het huisje op de stippellijnen in model. Schuif het huisje onder het dak en plak alles vast. Nu de peuter en de moeder voor het huis zetten met de lipjes één voor en één achteruit geplakt.

bijlage 8.2

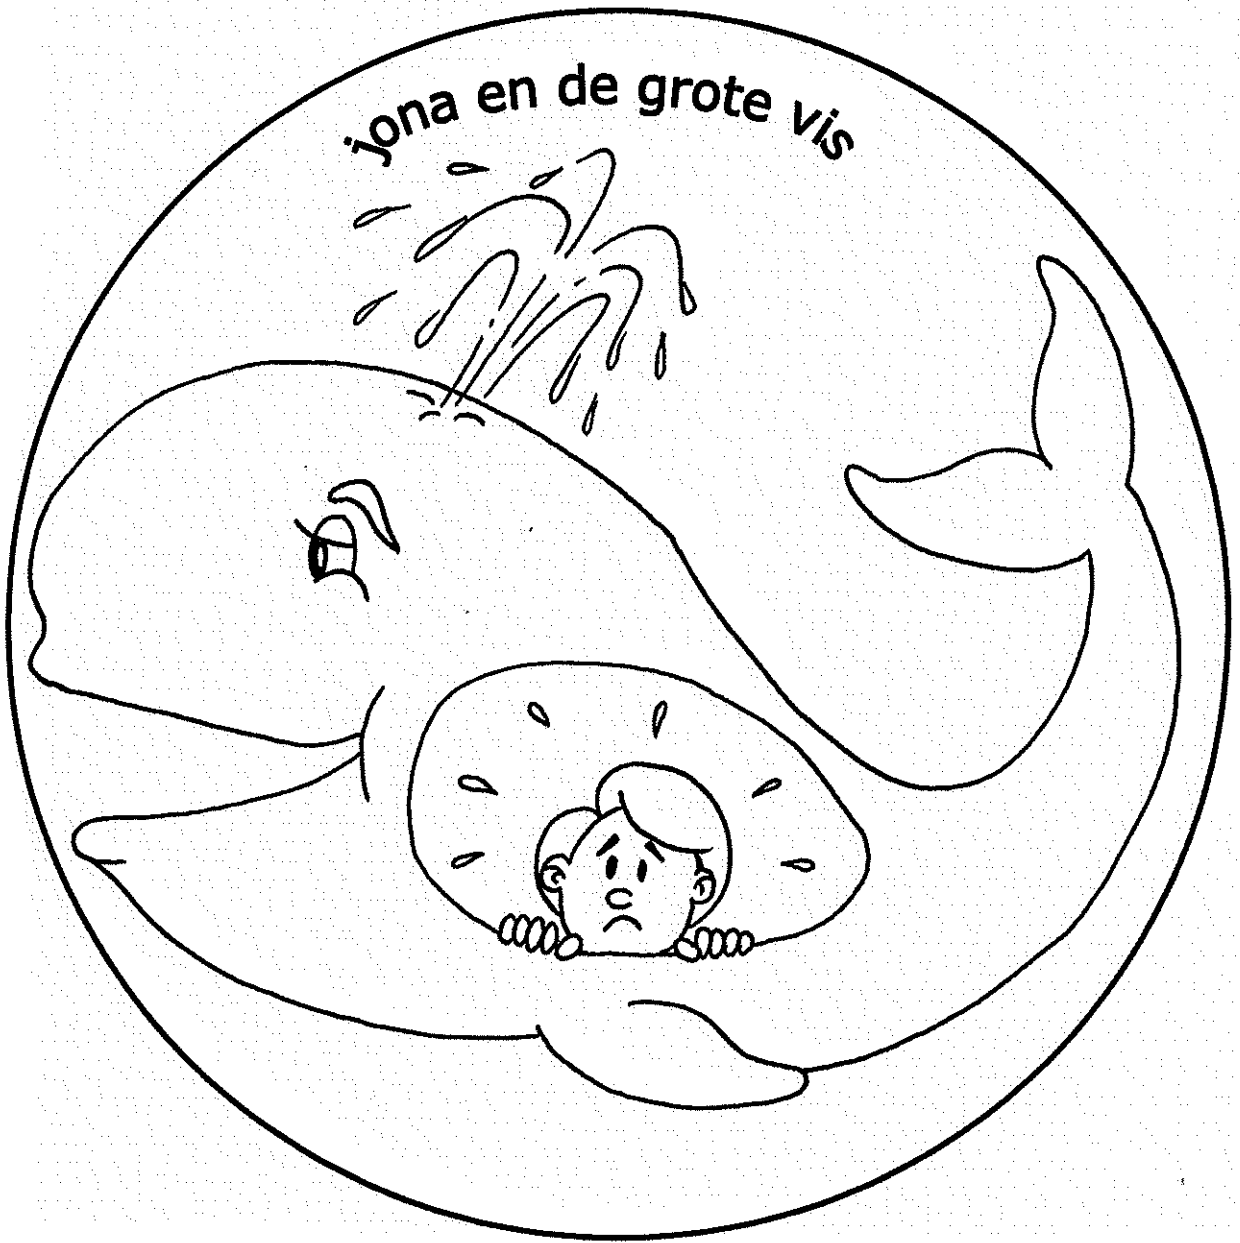

Kleur de vis en de strook en plak alles voor de stevigheid op stevig papier. Knip dan de vis en de strook netjes uit en snij de lijnen bij de stipellijnen in. Vouw de lipjes van de strook (alleen de bovenste) naar achteren en rijg de strook door de ingesneden lijnen, vouw dan de lipjes weer naar voren. Nu kun je Jona heen en weer schuiven zonder dat je de strook te ver schuift.
